## BaseCamp

For those who travel **SOLO** and are looking for... a lightweight, easy to set-up (FAST), and the 'roomiest' one person camper—Aspen offers the **BaseCamp**! This single bunk measures 47" x 72". The 6' sq. front room, rear zippered window and 25 cubic ft. concealed cargo space (with Basement) completes the BaseCamp package.

Simply described—BaseCamp is our 'Classic', less the rear bed board and some of the 'bells & whistles' found on Classic (no Velcro roof-surround or A/C Duct panel and a little less screening). However, ALL the same quality engineering incorporated in our Aspen line is found in the BaseCamp.

**Aspen BaseCamp brings you the best buy  
in the LIGHTWEIGHT market!**

# ***Simply stated— Aspen is your best buy in the Lightweight Camper market!***

*There may be 'look-a-likes', but no other camper compares to Aspen when studying the specifications, features, engineering and product quality. **Aspen is "...without competition!"***
