RE: N/A

Effective March 18, 2020, the Federal Aviation Administration Civil Aircraft Registry (FAA Registry) will no longer have a filing window open to accept documents for immediate filing. The FAA Registry has established a protocol for the filing of documents, and will be processing documents on a non-priority and a priority basis. Insured Aircraft Title Service will not be able to get an immediate filing time for the documents that are filed. Insured Aircraft Title Service will have to wait until filed documents have been indexed, scanned and available for viewing online to be able to determine the actual filing time of documents. It is unclear at this time how long this will take. This will affect the ability of Insured Aircraft Title Service to search the FAA Registry's indices of filings on an up-to-date basis.

This search is subject to the filings reflected on the records and index of collateral provided by the FAA and Insured Aircraft Title Service assumes no responsibility as to the accuracy of said source, and does not guarantee, insure, or warrant that said FAA records and index of collateral are free of error.

This title search DOES NOT include a search for registrations lodged at the International Registry of Mobile Assets. If this collateral qualifies under the provisions of the Capetown Convention and Aircraft Protocol, a separate search should be obtained.
